

Statewide Contracts - TRADES/MRO

The Operational Services Division (OSD), the agency that establishes and manages Statewide Contracts (SWCs) for the Commonwealth of Massachusetts, currently has four Trades contracts, covering 28 categories. There also are four Maintenance, Repair, and Operations (MRO) contracts with many options for purchasing.

When it comes to facilities management, Statewide Contract buyers have two options: (1) Purchase thousands of products, supplies, equipment, and labor using the four Trades contracts; or (2) Use the four MRO Statewide Contracts when you already have skilled personnel to do the work. Using the OSD Statewide Contracts versus conducting your own procurement satisfies the requirements of MGL 149 for smaller projects requiring less than \$50K in labor.

Trades Option:

If your organization does not have skilled personnel to handle trades projects, review options on TRD01, TRD02, TRD03, and TRD04. These contracts provide contractors to perform the necessary labor, and also include materials as part of the overall cost. It's a "turnkey" solution having one vendor provide materials, installation, and support of the project!

LABOR THRESHOLD - \$50,000; SUPPLIES - Unlimited

TRD01 Contract Categories

- » Boiler
- » Drain
- » Electrical
- » Fencing
- » General Contracting
- » Generator/Turbines

Note that trades projects are subject to the prevailing wage law and may be subject to construction procurement laws. While OSD provides context as related to using Statewide Contracts, OSD does not provide specific construction law advice and those questions should be directed to Eligible Entity legal counsel. When searching for trades vendors, you will find they are geographically awarded. Use the (red) tradesperson's link from the COMMBUYS.COM landing page.

UNSPSC Codes:

For Trades projects expected to exceed the \$50K labor threshold, COMMBUYS must be used to advertise bid postings and buyer entities must include at least one commodity code to describe the good/service they are seeking. The Commonwealth uses the United Nations Standard Products and Services Code (UNSPSC), similar to a commodity code, to classify goods and services in COMMBUYS. Codes associated with our Trades services are offered here for your reference.

Note that buyers have the opportunity to notify COMMBUYS vendors of their bid postings. In these situations, when the UNSPSC in a vendor's COMMBUYS profile matches the UNSPSC in a bid opportunity, the vendor receives an automatic email notification. Information about Posting a Bid Notice on COMMBUYS is located on the COMMBUYS.com home page.

Searching for Statewide Contract Vendors

Use the Trades Index to search for awarded contractors by category and county. Refer to the Statewide Contract Index or Contract User Guides to locate available MRO vendors. Links to these resources also may be found on the COMMBUYS home page.
